Mission Control: solution

Adult host page / Keep this page out of sight

Answer: FOUR, so the sample digit is 4

The key assigns A=1, B=2 and so on.
6 = F 15 = O 21 = U 18 = R
The letters spell FOUR. The digit to write is 4.

Offer one hint at a time

1. Can you find the letter that matches the first number?
2. Read the four letters from left to right.
3. The hidden word is the name of a number.

Keep everybody involved

One player can hold the key; another can point to each number.
Let another child write or say the answer. Rotate roles next time.
There is no time limit. The aim is a shared discovery.
